# Opal

Opal is a medium early crisp variety. Excellent product quality after cold and long-term storage. It is also suitable for the production of dehydrated products. Small, oval tubers with light yellow flesh color. Resistant to PCN Ro1, Ro4; high resistances to leaf- and tuber blight, black leg, common scab and internal rust spot.

#### **Plant**

Maturity Medium early
Plant type Stem type
Growth habit Semi-upright
Color of flower Red-violet
Foliage development Rapid, Medium
Number of tubers Medium, High
Dormancy Very high

Ro 1, Ro 4

## Resistances
